ABOUT e-SYMPOSIUM:

Immunotherapy or biological therapy is the treatment of disease by activating or suppressing the immune system. Immunotherapies designed to elicit or amplify an immune response are classified as activation immunotherapies, while immunotherapies that reduce or suppress are classified as suppression immunotherapies. In recent years, immunotherapy has become of great interest to researchers, clinicians and pharmaceutical companies, particularly in its promise to treat various forms of cancer. As a result, the standard of care for cancer is changing, as well as gaining complexity for managing patient care and A bioanalytical method is a set of procedures involved in the collection, processing, storage, and analysis of a biological matrix for a chemical compound. Bioanalytical method validation (BMV) is the process used to establish that a quantitative analytical method is suitable for biochemical applications. Immunotherapy or biological therapy is the treatment of disease by activating or suppressing the immune system. Immunotherapies designed to elicit or amplify an immune response are classified as activation Immunotherapies, while Immunotherapies that reduce or suppress are classified as suppression Immunotherapies. It transfer knowledge of immunology into clinical decision-making through case studies also the demonstrate a capacity for problem-solving about immune responsiveness. It describe immunological response and how it is triggered and regulated. The participants will be able to identify the cellular and molecular basis of immune responsiveness. The students will be able to describe the roles of the immune system in both maintaining health and contributing to disease. Event Summary Report

Name of Event / Activity: Guest lecturers on "How to Select Design for Design of Experiment".

Name of Guest / Expert: Mr. Swapnil Chopade

Number of Students /Persons Attending:

Sponsoring Organization: Vasantidevi Patil Institute of Pharmacy, Kodoli.

Location of Event: Seminar Hall VPIP Kodoli.

Objective of the Event: To enculacate skills to select Design for Design of Experiment".

Brief Description: Felicitation of guest speaker Mr. Swapnil Chopade Sir is done by Dr.S.A.Payghan, Principal Vasantidevi Patil Institute of Pharmacy, Kodoli. Chopade Sir is discussed about how to design a select research design by using design of experiment software, different types of designs such as box behenkan, central composite design. Sir also discussed regarding Minitab, R software and given demonstration of DOE Software to students and answered the quires of students.

Event / Activity Outcomes

Students able to choose best fit design for their formulation. Students also understand the limitations of other designs, and optimization based on desired results. Students Develop skills in qualitative and quantitative data analysis by using DOE software.

ABOUT THE EXPERT TALK:

COVID-19 pandemic affected all the fronts of life, and education is no exception. School, Colleges and Universities closed their premises and to face-to-face lectures replaced with online learning. In this connection, all the activities are conducted through online mode and co-curricular activities too.

Herbal medicine is precursor of modern medicine and drug development. There are n numbers of modern medicines which are as effective as synthetic medicine, and such medicines are still used worldwide.

To make our students familiar with the world of herbal medicine and what actually going on in the field of herbal medicine, institute had organized a Live webinar on "Recent Era of Herbal Medicine".

And for the same the expert speaker was Dr. Shailesh L. Patwekar, Assistant Professor, School of Pharmacy, S.R.T.M. University Nanded.

MEDICAL STORE MANAGEMENT SYSTEM:

In the present time, the medical stores are looking for the services that are accurate and reliable for providing services to the customers and workers. Every store is making efforts to computerize their activities for providing better services to the customers. The medical store management system is the system used for medicine stock inventory in the medical stores. This system enables the manager of the store to record and manage all activities of the medical shop.

Ashwini madam informed the students about the forms required for a medical store and how to select a location when opening a medical store. Madam in the workshop also gave information on how to keep documentation in medical. She also informed the students about how to keep a record of the scheduled drugs or expired drugs in the medical stores.

After that, Uday Sir gave a lecture on Medical Store Software in which he informed the students about the software that is best used in medical. In it, they demonstrated the software and how to give order or purchase a medicine by using this software.

This system also enables the workforce of the medical store to offer their services in a manner which is more efficient and systematic which also improve of the medical store. This also helps in analyzing the performance of the store. the medical store management software can organize the daily activities in the medical store such as information of tablets, billing, details of stock and others. The medical store management software enables to maintain the details of purchase stock by the store and the details of the selling stock by customer wise.

ABOUT THE EXPERT TALK:

COVID-19 pandemic affected all the fronts of life, and education is no exception. School, Colleges and Universities closed their premises and to face-to-face lectures replaced with online learning. In this connection, all the activities are conducted through online mode and co-curricular activities too.

Cheminformatics is the use of computer and informational techniques, applied to a range of problems in the field of chemistry. It is also known as chemoinformatics and chemical informatics. These in silico techniques are used in pharmaceutical companies in the process of drug discovery. Cheminformatics can also be applied to data analysis for various industries such as paper and pulp, dyes and such allied industries.

About Topic:

Graduate Pharmacy Aptitude Test (GPAT) is a National Level Entrance Examination for entry into M. Pharma Programme. This Test facilitates institutions to select suitable Pharmacy Graduates for admission into the Masters (M.Pharma) Program. The GPAT is a three hours Computer Based Online Test. A few scholarships and other financial assistance in the field of Pharmacy are also given on the basis of GPAT Scores. The GPAT Score is accepted by all AICTE/Pharmacy Council of India (PCI) approved / affiliated University Departments / Constituent / Affiliated Colleges / Institutions. GPAT-2021 will be conducted by NTA as three hour entrance examination in Computer Based Test (CBT) mode to evaluate the candidates' ability across various segments, for admission to the Masters (M.Pharma) Program in the Academic Session 2021-22. The participating Institutions of GPAT-2021 are the Institutions which will be accepting the Score of GPAT-2021. Candidates must apply separately to the desired GPAT-2021 participating Institutions with the GPAT-2021 Score. Thereafter, each participating Institute will release their respective cut off GPAT Scores which a candidate should meet to get qualified for admission to that particular Institution. Once qualified, the candidate will have to comply with the selection procedure of that particular Institution, which may comprise of Group Discussion (GD) and Personal Interview (PI). The final selection of the candidate will be based on the candidate's performance in GD & PI. Candidates are advised to read the details of the admission process of each participating Institution of GPAT-2021 on their respective websites.

Title: Bioinformatics in Pharmaceutical Chemistry

Date- 27 May 2020

Report on webinar series meet 2020 Guest speaker

Organized by- Vasantidevi Patil Institute of Pharmacy, Kodoli.

Eighth series time- 11:00am to 12:00pm

Name of Guest speaker- Mrs. Asma A. Mokashi,

Assistant Professor in dept. of Pharmaceutical Chemistry,
MCE Society's Allana College of Pharmacy, Azam Campus, Pune.

Introduction of lecture- Miss. Lalita Dahiwade madam introduced the guest speaker

Started the lecture by Mrs. Asma A. Mokashi-

Important point of view of lecture-

- 1) Mrs. Asma Mokashi was very nicely introduced the topic of lecture **"Bioinformatics in Pharmaceutical Chemistry"**.
- 2) They gave lots of information regarding Bioinformatics in Pharmaceutical Chemistry to the students.
- 3) They introduced following points-
 - a) Drug discovery and development
 - b) Brief knowledge about methodology
 - c) Trigger thinking for learning drug design with bioinformatics
 - d) Changing difficult view about pharmaceutical chemistry
 - e) Job oriented mindset for this field, and also introduced bioinformatics related fields.
- 4) And lastly she told to students pharmaceutical chemistry is not boring it's interestingly challenging subject.

Conclusion session of the lecture – Mrs. Pournima Sankapal madam was gave thanks giving speech.

Introduction of lecture- Miss. Lalita Dahiwade Madam introduced the guest speaker

Started the lecture by Mr. Abhinandan A. Alman

Important point of view of lecture-

- 1) Mr. Abhinandan Alman was very nicely introduced the topic of lecture "Mechanism and Regulation of protein Synthesis".
- 2) They gave lots of information regarding Mechanism and Regulation of protein Synthesis to the students.
- 3) They introduced following points-
 - a) Firstly introduced Protein
 - b) Types and formation of proteins
 - c) Function of protein
 - d) Protein synthesis: Storage
 - e) Making a protein- Transcription
 - f) Protein synthesis or translation summary
- 4) Definitely this webinar was full on knowledgeable for the students to clear the basic knowledge of protein

Conclusion session of the lecture - Miss. Rutika Harshad madam was gave thanks giving speech.

Fifth series time- 04:00pm to 05:00pm

Name of Guest speaker- Dr. Prafulla Choudhari,
Assistant Professor, Dept. of Pharmaceutical Chemistry,
Bharti Vidyapeeth College of Pharmacy, Kolhapur.

Introduction of lecture- Miss. Lalita Dahiwade Madam introduced the guest speaker

Started the lecture by Dr. Prafulla Choudhari

Important point of view of lecture-

- 1) Dr. Prafulla Choudhari was very nicely introduced the topic of lecture "Conceptual understanding of Medicinal Chemistry".
- 2) They had discussed subject with students like introduction of medicinal chemistry, common problems in medicinal chemistry, smart techniques and online database.
- 3) Lastly they gave lots of information regarding the medicinal chemistry from the point of view GPAT examination and also provide information about many online websites introduced to the students like chemjuice, ChemDoodle mobile, chemical structure drawing mobile molecular datasheet, named reaction, ReactionFlash, Yield 101etc.
- 4) In this session saw students had very curiosity about online websites related information for making easy subject like medicinal chemistry.

Conclusion session of the lecture - Miss. Kavita Nangare madam was gave thanks giving speech.
